

# In the Walls

**Stellastarr\***

In the walls  
in the fall  
i can see them all  
the 44 superstores  
all across the malls. It took a while for me to know,  
iam not alone  
it took a while for me to know  
im not alone. Take your time  
take a breath  
diregard the rest. The falling chains  
the falling lies  
make pretend your mine. Don`t wait for my disease  
it`s laying next to metry to hide  
yes your trying to be  
what your dreaming of,  
what your dreaming of. Stay (stay) stay awake  
(stay awake) stay alive. It`s the only breath your`ll  
take (take)  
when you go (go)  
when you go, go, go, go  
don`t wait for my disease  
it`s the one  
it`s laying next to me  
trying do hard to be
