Ways (1st Mix)

Samael

How long is a life how many ways can you try on
How long is your life how many ways did you try on
don't need to reach the end when you know what's there
no one knows what's there...
get in get out don't lose time in the roundabout
get in get out read your map if you ever doubt
try on try out all different sense
try on reach out for distant sunsthe way we take, the one we don't
the one we left, the one we change
the one that burns, the one that freezes
the one we built, the one we are
along the way there's some ways we take another waygot power to ponder
to construct to structure
to be tuned, uninterfered
to conquer our inner self
to prevent and assure
to invent our futurefighting the resistance of time
with persistence of faith
softly, cunningly, cleaning the dirt
wildly, radiantly, drowning the rebirthwinged by pressure
dazzled by pleasure
distorted absorbed
restored again and againthere's an after to every now...
an answer to every how
there's an after to every nowthe way we take, the one we don't
the one we left, the one we change
the one that burns, the one that freezes
the one we built, the one we are
along the way there's some ways we take another waythere's a way there's one way and that is the way
there's a way
away
