

# Ways (1st Mix)

## Samael

How long is a life how many ways can you try on  
How long is your life how many ways did you try on  
don't need to reach the end when you know what's there  
no one knows what's there...  
get in get out don't lose time in the roundabout  
get in get out read your map if you ever doubt  
try on try out all different sense  
try on reach out for distant sunthe way we take, the one we don't  
the one we left, the one we change  
the one that burns, the one that freezes  
the one we built, the one we are  
along the way there's some ways we take another waygot power to ponder  
to construct to structure  
to be tuned, uninterfered  
to conquer our inner self  
to prevent and assure  
to invent our futurefighting the resistance of time  
with persistence of faith  
softly, cunningly, cleaning the dirt  
wildly, radiantly, drowning the rebirthwinged by pressure  
dazzled by pleasure  
distorted absorbed  
restored again and againthere's an after to every now...  
an answer to every how  
there's an after to every nowthe way we take, the one we don't  
the one we left, the one we change  
the one that burns, the one that freezes  
the one we built, the one we are  
along the way there's some ways we take another waythere's a way there's one way and that is the way  
there's a way  
away
