Outside the Machine

No-Man

I'm tired, I'm cold.
untied and feeling old.you're all lit up like catherine wheels.
you're all lit up, but you're not real.I don't need you,
not like I used to do.
I don't need you,
not like I did.hate confusion, need advice.
love illusion, need advice.what does it mean to be a part of you?
how does it feel inside the heart of you?I don't need you,
not like I used to do.
I don't need you,
not like I did.outside the machine,
left alone with my dreams.
outside the machine,
all lit up, somebody screams.what does it mean to be a part of you?
tried to get inside the very heart of you.
