

# Friends Like Mine (Jimmy Kimmel Live! Version)

## The Donnas

C'mon and show me  
That you really know me  
So close so tight  
At least for tonightTurning silver and gold  
Into rubber and glue  
Not supposed to let it get to you  
It's easy to say but hard to doWhen you roll back into town  
Theyll all be around  
Just to show you  
That friends like mine will never let you down  
Until you hit the groundAnd they dont know youTake what you can borrow  
But what about tomorrow  
Just have to wait and see  
Whats in it for meTurning silver and gold  
Into rubber and glue  
Not supposed to let it get to you  
It's easy to say but hard to doWhen you roll back into town  
Theyll all be around  
Just to show you  
That friends like mine will never let you down  
Until you hit the groundYour an open book  
Here's a mirror  
Take a look  
Dont like what you see?  
Dont come running to meWhen you roll back into town  
Theyll all be around  
Just to show you  
That friends like mine will never let you down  
Until you hit the groundAnd they dont know you  
Friends like mine will never let you down  
And they dont know you
