Flying Blind

[Daily Planet](#)

I'm just fine, but in time
This sunshine will surely fade into the moonlight
I'll adapt without a map, feelin' trapped
Only seein' what my headlightsBut if I share this skin I'm livin' in
I know I can't go alone
And I sayYou've got the lead, You've got the reins
I'm flying blind, so I'll just stay behind You
I've got the faith You'll take me there
I'm flying blind, a wing and prayer to guide me
I gotta give control, give control to the pilot of my soulI'm a man who could stand to lose command
So You can clearly give me direction
I'll piggyback 'cause what I lack is a track
That will get me to the stationBut if I shed this skin I'm livin' in
I know I can't go alone
And I sayYou've got the lead, You've got the reins
I'm flying blind, so I'll just stay behind You
I've got the faith You'll take me there
I'm flying blind, a wing and prayer to guide me
I gotta give control, give control to the pilot of mySoul flyin', it ain't easy
But with the good Lord, I know He'll take me there
With the good Lord by my side I know I'll make it through the night
As Jesus Christ He leads me to my freedom, I've got the freedomYou've got the lead, You've got the reins
I'm flying blind, so I'll just stay behind You
I've got the faith You'll take me there
I'm flying blind, a wing and prayer to guide me
I gotta give control, give control to the pilot of my soul
