

One Way

[Terri Hendrix](#)

One way is the only way you see things
It's your way or not at all
And I'm feeling like a fool for feeling
That I could light you up inside Your closed and locked up for the evening
I see your shadow behind the blinds
And I'm feeling like a fool for feeling
That I could open up your mind As I walk away I see
Reality
Has caught up with me You open my heart and you swim inside me
You open my soul and your blood runs through me
You're too wrapped up in yourself to see
How it hurts me when you push me away The only way out is the same way I came in
I'll reach inside and I'll pull myself through
I'm just another fool who tried, I'm just another fool who tried
To open you up inside, I give up 'cause I'm tired of trying As I walk away I see
Reality
Has caught up with me
Reality
Has caught up with me One way
Is the only way you see things
It's your way or not at all
Not at all
