Summer Fever

The Numbers Band

Winds may come and winds may blow
But there's no wind can cure me of my fever
Summer fever
Time of love, time of year
Temperature's rising, our bodies near in fever
Summer fever, fever, summer fever
Heat wave run, dog day night
We're making love, things are right with fever
Summer fever
You burn so deep with your love so sweet
And you satisfy and mystify my fever
Summer fever, fever, summer fever
Fever, summer fever
Body to body, arms entwined
Locked in your love and feeling fine with fever
Summer fever
It's the time of love, the time of year
Temperature's rising, our bodies near in fever
Summer fever, fever, summer fever
Fever, summer fever, fever, summer fever
Summer, summer fever
Summer, summer fever
Summer, summer fever
Summer, summer fever
Summer, summer fever
Summer, summer fever
Summer, summer fever
Winds may come and winds may blow
But there's no wind can cure me of my fever, I got
Summer fever, I got
You burn so deep, your love so sweet
And you satisfy and mystify my fever, I got
Summer fever, I got
Fever, I got, summer fever, I got
Fever, I got, summer fever, I got
Fever, I got, summer fever, I got
Fever, fever, fever
Summer fever
Summer fever

Summer fever
Fever, fever, fever, fever
