

# Summer Fever

## The Numbers Band

Winds may come and winds may blow  
But there's no wind can cure me of my fever

Summer fever

Time of love, time of year

Temperature's rising, our bodies near in fever

Summer fever, fever, summer fever

Heat wave run, dog day night

We're making love, things are right with fever

Summer fever

You burn so deep with your love so sweet

And you satisfy and mystify my fever

Summer fever, fever, summer fever

Fever, summer fever

Body to body, arms entwined

Locked in your love and feeling fine with fever

Summer fever

It's the time of love, the time of year

Temperature's rising, our bodies near in fever

Summer fever, fever, summer fever

Fever, summer fever, fever, summer fever

Summer, summer fever

Winds may come and winds may blow

But there's no wind can cure me of my fever, I got

Summer fever, I got

You burn so deep, your love so sweet

And you satisfy and mystify my fever, I got

Summer fever, I got

Fever, I got, summer fever, I got

Fever, I got, summer fever, I got

Fever, I got, summer fever, I got

Fever, fever, fever

Summer fever

Summer fever

Summer fever  
Fever, fever, fever, fever
