Clearly

Anthony Hamilton

You've got me caught up in a daze
And I, can't seem to understand
What I've been thinking
And although you're coming clearly nowIt's hard for me to turn around
And keep from blinking
All that I can do is be their
And heaven knows that I swearYou do something to me that I'll never
Ever tell a lie, I'll always be there
By your side, you're so soothingIt's clearly understandable
That I'm not some type of animal
I'm just in love with you and heaven
Knows I'm glad I found ya loving
And you came around to do the things that you doYou don't even hardly speak to me
Tell me what could it be
To let you walk away so freely
But you still call from time to timeTell me why you play with me mind
I know you wanna be here with me
All that I can do is be their
And heaven knows that I swearYou do something to me that I'll never
Ever tell a lie, I'll always be there
By your side you're so soothingIt's clearly understandable
That I'm not some type of animal
I'm just in love with you and heaven
Knows I'm glad I found ya loving
And you came around to do the things that you doI just don't know what I've been
Doing wrong in your life baby
Baby if you give me one my time
I will never ever leave yours side, oohIt's clearly understandable
That I'm not some type of animal
I'm just in love with you and heaven
Knows I'm glad I found ya loving
And you came around to do the things that you do
