

Am I Wry? No

Mew

Farah, now that youre here, can you tell me
Exactly how I should have done?
Farah, drives with her eyes closed
Do you ever inflict unwanted memories? I know you and I know
It wont take you long to make me smile
Farah, angelic girl, Ill have you know
Its you and me potentially Farah, dont pull the carpet from under me
Indifference is killing me
Am I wry? Oh, my fallacy
Fallacy in my words, am I wry? I know you and I know
Youre not afraid to say the least
Diamond ring, diamond ring
But you cant find it cold is the night
