

Tell Me What To Do

SHINee

Tell Me What To Do x 4 These days I
I don't know I don't know you
The eyes seemed give up lots of things
But I can hear a wordless cry
Tell Me What To Do Lovers who are no longer dramatic changed
Is it the result of time?
It's already finished, even we didn't
Tell Me What To Do Unsolved issues are in front of us
You're crying on the street to a dead end
I'll come to you first and ask
With stroking away tears on your cheek Tell Me What To Do x 4 I want you to know, even I didn't tell
A misunderstanding you're the only person who gives
The words I told you because I feel at ease with you
Tell Me What To Do The hurtful words with indifference
The day I hurt you deeply
The word which reminds myself I'm still a stupid If I can erase that
If I really can, I'll come to you first and ask
With stroking away tears on your cheek
Who is crying on the street to a dead end Tell Me What To Do
(I want you tell me what to do)
Tell Me What To Do
(Don't cry no more)
Tell Me What To Do
(If your mind looks at me)
Tell Me What To Do
(Don't cry no more) The place where naturally I thought it's yours
Only from the thinking you're not here anymore
I can't stand, it feels the whole world has crashed down on me Am I the one for you
You're thinking of me from the past
You told I changed a lot at that time
Yes, for now I changed
The one for me
I don't know what's that but I keep asking you our appointment
The memories of that time are still there
But those are slowly fading away That smile is coming to me
Cold hands are getting warmer
The two lonely spirits met
Not lonely, lonely, lonely, lonely
I'll look at you again

I'll get your breath in my ear
 Even though everything will be changed but us I'll come to you first and ask
 With stroking away tears on your cheek (Tell Me What To Do)
