

When It Rain

Danny Brown

[Intro]

Have you ever been, uh, stiffed at work?
No, I've never been stiffed... at work[Verse 1]

Run it back

Golden wrist on that cat
Go Traxman, hit it from the back
DJ Assault be slapping it back
Bruiser Brigade, we run that train
Put that thang in her kaboose
Only way you hang is with a noose
Beef with us, it ain't no truce
Y'all niggas lame, y'all ain't like us
Hanging with the devil off angel dust
For that money, in God we trust
All fall victim for greed and lust
Where'd you put the trust when guns gon' buss?
Living every day like it's the end
Just wakin' up, feeling like a sin
Gotta keep an eye out on your friends
Cause everybody hungry in them streets
Nigga rob your grandma for something to eat
Know it's fucked up, that's how it be
Growing up living every day in the D
And it don't seem like shit gon' change
No time soon in the City of Boom
Do it from the top, we emerge from the room
Sold that coke that we consume
Here we go, now, here we go
Ain't no water, how flower gon' grow?
Ain't no change, then how we gon' change?
No umbrella, we stuck in the rain
Dark clouds hanging all over our heads
No sunshine and them shots be lead
Lining them squares so the dots be red
Now your best friend gets shot in the head, dead[Bridge 1]
Oh, you ain't know that
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that, did you?
Better duck when you hear them gunshots go off

Pop off and all them shots go off
Knock off, you're tryna play me soft
Glocks out in your face, dawg
No baseball, better run home
Hit your line, blood on your tongue
Exorcist, your head get spun
Exodus, I might forget
Bitch, when it's time for your ass to be dumped[Pre-Hook]
You ain't heard it like this before
They don't do it like this no more
That get on up, that get on up
That get on up, up on the floor
You ain't heard it like this before
They don't do it like this no more
That get on up, that get on up
That get on up, up on the floor[Hook]
Oh, you ain't know that
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that, did you?
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that, did you?
When it rain, when it pour, get your ass on the floor now[Verse 2]
Turn on the percolator
Murder music orchestrator
Point blank hollow tip circulator
Your ass lucky if you on respirator
I'm like Vega rolling with that blade
Kid don't play, wanna catch that fade?
Shoot the house party up with them K
Shut down when we hear the DJ
That Detroit shit, do the rambisco
Minks and Gators, pissed on the disco
Eating crawfish out the fish bowl
Heaters off safety, watching the pistols
Niggas get pissed on no-fly zone
Call Uncle Trick when you hit my home
Beef with him? Don't hit my phone
D vs. everybody, ain't no sound
Coming from the city where them girls be lurking
Get caught slipping, your ass'll be hurt
That's for certain, your ass be curtains
Y'all niggas out there putting that work in
I don't use credit for a pair of Jordans

Whole damn city probably got a couple warrants
When they come to jail, always stay pon it
They don't give a fuck, they just go pop[Bridge 2]
Oh, you ain't know that
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that, did you?
Better duck when you hear them gunshots go off
Pop off and all them shots go off
Knock off, you're tryna play me soft
Glocks out in your face, dawg
No baseball, better run home[Pre-Hook]
You ain't heard it like this before
They don't do it like this no more
That get on up, that get on up
That get on up, up on the floor
You ain't heard it like this before
They don't do it like this no more
That get on up, that get on up
That get on up, up on the floor[Hook]
Oh, you ain't know that
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that, did you?
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that
When it rain, when it pour, get your ass on the floor now
Oh, you ain't know that, did you?
When it rain, when it pour, get your ass on the floor now
