

Breaking the Model

New Medicine

You can keep your motherfuckin' politics
you punk ass boardroom piece of shit
'cause my music isn't made for your three-piece suit
it's for the angry kids up in the mosh pit, dude
Fuck it

-

Chorus:

We are breaking the model, we are bringing the new wave
You can't stop us, 'cause you can't keep up
we're straight breaking the model, breaking the model
we are the ones who never fit in; this is a coup d'État you're gonna get it
you can't stop us, 'cause you can't keep up
we're straight fist to the throttle, breaking the model-

Now everybody wants to get a piece of us, 'cause we are the young and dangerous

Don't know your time already came and went

welcome to the new establishment-Chorus-Never gonna sell my soul, never going down that road

do you ever lose control? 'cause I'm about to lose control.

So put your hands up if you feel like me, hands up if you wanna break free. So put your hands up if you feel like
me, hands up if you wanna break free.-Chorus-
