Diving

Sneaker Pimps

(low five ep)Cut the cord and swing the lead
Failure's fate the one instead
The tidemark's risingBlossom falls and clouds the air
Powder trails the one in care
The tidemark's risingLeaving you; became arriving
Falling down; became divingFlowers bloom and take the sun
Chances left when all is done
The tidemark's risingRiver swells and breaks it banks
Acting up instead of thanks
The tidemarks risingLeaving you; became arriving
Falling down; became divingFlooding cares to keep hope clear
Drowning all to keep what's dear
The tidemark's risingKeeping undercounts as acts
Lying hard to prove a fact
The tidemark's risingLeaving you: became arriving
Falling down: became diving
