Get Crucified

[Farmer Boys](#)

This time they knew what they did
This time they knew what they did
This time they knew what they were
Doing the whole timeThis time they knew what they did
This time they knew what they did
This time they had their eyes wide open
And their pants pulled downYou got religion, you gave it back
You got redemption but you just gave it back
You got salvation and you gave it back
I've seen enough and now I am coming backAnd this time no one gets out alive
'Cause this time you get crucified
You get crucified, you get crucifiedIt's time they learned what they did
It's time they learned what they did
It's time they finally got a little taste of
Just who they're fucking withYou got religion, you gave it back
You got redemption but you just gave it back
You got salvation and you gave it back
I've seen enough and now I am coming backAnd this time no one gets out alive
'Cause this time you get crucified
You get crucified, you get crucified
