Happiness Is All The Rage

The Promise Ring

I got my body and my mind on the same page
And honey now, happiness is all the rage
I got my body and my mind on the same page
And honey now, happiness is all the rageAnd we could do more outdoor things
If we weren't so busy getting busy
So doing laundry finally, the first sign of first light
And still there's nothing to wear between usAnd I got my body and my mind on the same page
And honey now, happiness is all the rage
I got my body and my mind on the same page
And honey now, happiness is all the rageAnd I am so filled with just one girl
My eyes barely open, I can barely read
So this is the end of the past, the first sign of first light
Yeah, now, it's alright between usI got my body and my mind on the same page
And honey now, happiness is all the rage
I got my body and my mind on the same page
And honey now, happiness is all the rage
It's all the rageAnd still there's nothing to wear between usAnd happiness is all the rage
Happiness is all the rage
Happiness is all the rage
And happiness is all the rage
