A Life Between Us

Finn Brothers

In so many ways, I'm the same as you
In so many things better left unsaid
From out of the deep well the water flows into the seaAnd that's the way it starts
And continues to unfold
But to both of us
That will never changeAnd we're staring at each other
Like the banks of a river
And we can't get any closerI won't give control to anyone
Walk around , kiss the ground like I own the place
But in the passage of time the river banks get washed awayAnd that's the way it starts
And continues to evolve
I reveal myself
You watch over meAnd we're staring at each other
Like the banks of a river
And we can't get any closer
But we form a life between us
And brotherNot my way
Must be the different direction we're facing
Not my way
You're still as unknown as everAre you still someone
Who'll watch over me?And we're staring at each other
Like the banks of a river
And we can't get any closerBut we form a life
Yes, we form a life
Between us, between us
