

**5 x 5**

**Ashley Ballard**

(All systems operational)  
(I'm so alive)  
(Everything is 5 x 5)Got me feeling like there's no gravity  
Trying to look at the space between you and me boy  
Just trying to get into your world  
I need your smile to bring me safely back to earth  
Cause when you touch me boy  
I'm in another universe  
I just wanna stay here till the end of time  
No matter where you are  
Baby your love is a guiding star  
Switch into overdrive cause everything is 5 x 5Chorus  
All systems operational just give the word  
I'll give you lovin' unconditional  
Don't you know you're my life support  
I'm so alive, now everything is 5 x 5Celebration when we're standing face to face  
A calculation as my heart beats into hyperspace  
I wanna stay here till the end of time  
No matter where we are  
Baby you'll shine like the brightest star  
Switch into overdrive  
Everything is 5 x 5All systems operational just give the word  
I'll give you lovin' unconditional  
Don't you know you're my life support  
I'm so alive, now everything is 5 x 5No matter where you are  
Baby your love is a guiding star  
Switch into overdrive  
Everything is 5 x 5All systems operational just give the word  
I'll give you lovin' unconditional  
Don't you know you're my life support  
I'm so alive, now everything is 5 x 5All systems operational just give the word  
I'll give you lovin' unconditional  
Don't you know you're my life support  
I'm so alive, now everything is 5 x 5All systems operational just give the word  
I'll give you lovin' unconditional  
Don't you know you're my life support  
I'm so alive, now everything is 5 x 5
