

Better

Palm Trees & Power Lines

You looked into my eyes
You looked into my eyes
And you told me
You said I know we never fight
But I'm sick of holding back all these feelings
I held my breath for a moment
That felt like a year
I want you to know if you want me
That baby I'm here, baby I'm here
We could be better, tell me you want me to
Lay here forever, and I'll give my heart to you
Just stay a little longer
You make the nights feel warmer
We could be better, tell me you want me too
The letters that you sent,
The letters that you sent
I adored them
I hate the way we've changed
We've gone our separate ways in slow motion
And every time I call, I hear nothing at all
Except the Dial Tone
Take everything back to the way it was
Cause right now I'm helpless
