Golden

Kingswood

[Verse]
There you go you got your hooks in me
And I'm secretly high off the feeling
That keeps you hooked and holding on
Feel the push of you so endlessly
And I'm looking to find another sequence
That drops me in a golden dawn

[Pre-Chorus]
Golden dawn
Golden dawn

[Chorus]
Oh I
Think about it all the time
Don't know why, just hold me closer
So I can try expose you
Oh I
Think about it all the time
Don't know why, just hold me closer
So I regain composure

[Verse]
Scratch our names into the willow tree
Cause we're making a sign
To prove that we are deep love shown off good enough
I can feel your beat deep breath inbreath hot breath
Don't stop until there's nothing left
Then we watch it collide for a golden dawn

[Chorus]
Oh I
Think about it all the time
Don't know why, just hold me closer
So I can try expose you
Oh I
Think about it all the time
Don't know why, just hold me closer
So I regain composure

[Guitar Solo]

[Pre-Chorus]
Golden dawn
Golden dawn

[Chorus]
Oh I
Think about it all the time
Don't know why, just hold me closer
So I can try expose you
Oh I
Think about it all the time
Don't know why, just hold me closer
So I regain composure

[Outro]
Why, just hold me closer so I regain composure
Why, just hold me closer so I regain composure
