

Oh Urania (Take Me Away)

Andrew Gold

One hundred million billion stars up in the sky
Each one looks so beautiful reflected in your eyes
I wonder if there could be life up there
A perfect world evolving anywhere

Down here the people have such problems on their hands
Nothing to believe in and fear divides the lands
Can it be so unhappy everywhere?
Is there a place where everybody cares?

Oh, Urania
Take me with you
Oh, take me away

One hundred million billion stars up in the sky
Each one looks so beautiful reflected in your eyes
I wonder if there could be life up there
A perfect world evolving anywhere

Oh, Urania
Take me with you
Oh, take me away

Oh, Urania
Take me with you
Oh, take me away
Away

Oh, Urania, take me away (Take me away)
Oh, Urania, take me away (Take me away)
Oh, Urania, take me away (Take me away)
Oh, Urania, take me away (Take me away)
Oh, Urania, take me away (Take me away)
Oh, Urania, take me away (Take me away)
Oh, Urania, take me away (Take me away)
