

Because I Believe

Jenny Phillips

I hear the mighty thunder
As it echoes through the sky,
I watch the moon and stars
Shinning in the night.
All of Gods creations great and small
Testify that He is over all,
His wonders truth burns in my soul
And with all my heart I want Him to know,

(Chorus)

I will walk the road less traveled
I will rise when others fall
And I will be a witness of His truth
I will answer when He calls me
With a life that is pure and clean
And I'll prepare to stand before Him
Because I believe

I know that every breath inside me comes God above,
And everywhere around me
I feel the witness of His love.
I see the sky and feel the grass beneath my feet
And I am amazed at all Hes given me
With all my heart I know that He lives
And I want to give all my praise to Him

(Chorus)

I will walk the road less traveled
I will rise when others fall
And I will be a witness of His truth
I will answer when He calls me
With a life that is pure and clean
And I'll prepare to stand before Him,
Because I believe

I believe...
