

Turn Me On

ABiCA

Walls around me they surround me
Leave me right here right where you found me
A spark in the dark is what I need to be free
Start with my heart and then you'll get to see me
And I need you here just to push me back
And I want to feel like I'm on the right track
Cuz I brought you here just to open a sore
But I can't pretend that I care anymore
Look and see right where you stand
Will it give you a clue a way to understand
Can it open up your eyes and erase all doubt
Or will you scream and shout to your voice runs out
Your so hypnotic
I think I caught it
And now I got it
Let me, come let it set me
And take my world of fire
Now I'm, another species
I'll write it if you read me
Leave me, these release me
Temporarily they complete me
Chorus
Turn me on
You know I'll give it to you
y-y-you know I'm on now
Turn me on
I know you you'll give it to me
i-i-i'll turn you on now
Take a chance
Living on let it go, open eyes surprise yo let's role
Take a try
Living on let it fly, fine lines and time to take mine
Turn me on
I need to know the facts cuz I think I might be trapped
I'm stuck in the cracks and I never can relax
You thought it would be easy that it wouldn't be this hard
I thought it could be real but it didn't get us far
You can try to blame me if it makes you feel better
But you'll always hate but I doubt you'll remember
Put the pill in my mouth so easy just swallow

You lead me down this path and I follow
I know the dangers
No I'm not stranger
That's why I came here
Now I, go flip your switches
Turn them on to fix all your glitches
Liftin, this life I'm living
To a place where all is forgiven
Sittin upon this less known addiction
Missin nothing, got no prescription

Turn me on
You know I'll give it to you
y-y-you know I'm on now
Turn me on
I know you you'll give it to me
i-i-i'll turn you on now
Take a chance
Living on let it go, open eyes surprise yo let's role
Take a try
Living on let it fly, fine lines and time to take mine

Turn me on
I see they're watchin me
I hear them asking me
I think they're wondering what's turning me what's twisting me
It's not what you would think
It's not what you would need
It's something more I'm looking for my kind of ecstasy
I see them listening
I know they're questioning what's turning me what's twistin me
It's not what you could see
It's not what you would be
It's something more I'm looking for my own tranquility
Turn me on
You know I'm on now, you know I'm on, you know I'm on now
I see them watching me
I hear them asking me, my kind of ecstasy
Turn me on
They're questioning what's turning me what's twisting me
What you could see
What you would be
It's something more I'm looking for my own tranquility
What's turning me what's twisting me
It's not what you could see
Turn me on
It's something more I'm looking for my kind of ecstasy
My tranquility
Them listening, they're questioning what's turning me what's twisting me

I'll turn you on now
What you could see
 Turn me on
I'll turn you on now
It's something more I'm looking for my own tranquility
It's something more I'm looking for my own tranquility
 Turn me on
