

# I Wanna Make an Arrest

Martha Wainwright

I dont mind being left behind  
I no longer care where the sound is coming from  
I cant hear the tears in your eyes  
I am always, always in disguise I wanna make an arrest  
And stop time and this test  
And lie down in the road  
And youre still at home  
And youre still at home Pavement is changing under my feet  
I no longer walk with chin high or skip to the beat  
I need to lie down  
Its terminal, see  
Im feelin the pain  
Ive got the disease Oh I wanna make an arrest  
And stop time and this test  
And lie down in the road  
And youre still at home  
And youre still at home Take off your shoes  
And stay awhile  
Ive been here waitin to see your smile  
Summers comin and the nights are long  
Ive been here listenin, cryin to your song Oh I wanna make an arrest  
And stop time and this test  
And lie down in the road  
And youre still at home  
And youre still at home Running against the clock  
Color blind all this time  
I went for a ride  
And I left your side  
Now Im in the lost and found  
And youre not around  
And theres no one I can see who can help me Oh I wanna make an arrest  
And stop time and this test  
And lie down in the road  
And youre still at home Oh I wanna make an arrest  
And stop time and this test  
And lie down in the road  
And youre still at home  
And youre still at home
