

# The World I Knew (From Disneynature African Cats)

Jordin Sparks

I don't know where this road is going to lead me  
But i'm hoping that with you i can make it through  
Mhmmhm  
I've had enough of this life to lead me  
Right up to the edge of the world i knew

I can't wait  
Just to see another day  
If it means it's  
One more day  
That i'm with you  
oooohoh!  
Down this road  
We'll look back at  
all we've known  
Found the love that can't grow old  
just passing through  
(passing through)  
The world i knew

I'll be loving your life till it fades away  
Tell the world cuz i know it will never change  
If something feels so right, just can't turn the page  
There's too much too loose  
We're just passing through

Time wont stop  
Wish that we could turn back the clock

I can't wait  
Just to see another day  
If it means it's one more day  
That i'm with you  
(i'm wit you)  
Down this road, we'll look back at all we've known  
Found the love that can't grow old  
just passing through  
The world i knew  
The world i knew  
The world i knew

The world i knew

The world i knew

The world i knew

---
