

Call Back Home

[Kyle Lionhart](#)

I lay down by my shadow
Taught me my secrets, taught me their truth
And he said where the fuck where you going
Left without reason, taught me I knew There's a better way to go about this
Better way to leave it all
Call back home remember what you left
Call back home cause this is how it ends God blessed on my Sundays
Stare at the old house this all fell through
Now ripping through memories, trying to get back what's the two of you There's a better way to go about this
Better way to leave it all
Call back home remember what you left
Call back home cause this is how it ends And I'm struggling with this constant
Am I getting this right?
Can I beat it myself this time
And I was never good at watching somebody that you love Call back home remember what you left
Call back home cause this is how it ends
Call back home remember what you left
Call back home cause this is how it ends I lay down by my shadow
Taught me my secrets
Shadow was you
