

We Made Love

Alabama

We were all we ever wanted
Before there was a single brick in this wall
That keeps the distance here between us
We built a life but we forgot we already had it all
When we made love, we made love
Baby, we had something that nothing else could touch
We made love
Through the lonely that divides us
And I can feel you reachin' from the other side
Let's tear this wall down and start over
And get back to, oh that simple life
When we made love, we made love
Baby, we had something that nothing else could touch
We made love
We're just past the doubt, beyond the hurt
We're not too far from where we were
When we made love, we made love
Baby, we've got something that nothing else can touch
When we made love
