

# Stupid Things

Aselin Debison

    Hmm, hmm, hmm  
Friends fight about stupid things  
This say stuff when they're mad  
    It really stings  
    Just seem to get close  
    And then you're not  
    When other friends ask  
    You look out and thought  
And I know that we haven't talked  
    But maybe we can laugh it off  
    It's these stupid things  
    My friends say to me  
    Why should we fight?  
    When we make up next week  
We forget what it's like and we stay up all night  
    Over these stupid things  
Mmm, six day passed, still no word  
    Don't believe everything  
    Haven't you heard  
    I never told that boy  
    You had a crush on him  
    We might hang out a lot  
    But you know  
    He's no hot shot

    And I know that we haven't talked  
    But maybe we can laugh it off  
    It's these stupid things  
    My friends say to me  
    Why should we fight?  
    When we make up next week  
We forget what it's like and we stay up all night  
    Over these stupid things  
    Yeah, yeah  
    These stupid things, yeah  
    These stupid things, yeah  
    These stupid things  
And I know that we haven't talked  
    But maybe we can laugh it off

It's these stupid things  
My friends say to me  
Why should we fight?  
When we make up next week  
We forget what it's like and we stay up all night  
Over these stupid things  
Yeah, yeah, yeah  
Over these stupid things
