

61 Cygni Ave

Neon Indian

Up all night with the radio
Star peppered black draping over me
Walking down the street Bad blood to napalm ratio
No love in class for the absentee
Walking down the street Call up the party high priest
Oh where oh where do the people go And they're having a party at 61 Cygni Avenue
Whatcha gonna do when they come for you? I'm just lookin' for the par-tee!
I'm just feelin' for the heartbeat!
Kim walks the block for the antidote
Givin' the leather clad third degree
Walking down the street But all 2 bucks gets is an anecdote
And a paranoid schizo reciting every major historic
Walking down the street We got something in store for you
We got something in store for you
We got something in store Cause we're having a party at 61 Cygni Avenue
Whatcha gonna do when they come for you? I'm just lookin' for the par-tee!
I'm just feelin' for the heartbeat!
