

# Godsend

## Incantation

Hoping, praying, I've been waiting  
Everybody needs somebody to love  
There's no question, straight from heaven  
You're my angel, I'm so crazy for you You're a Godsend  
A blessing from above  
You've been God sent to me  
You're the Godsend I've been dreaming of  
You're a Godsend Holding your hand, touching your face  
I will love you now and always I swear  
I will never forget that first moment we met  
When two worlds collided and I found my best friend You're a Godsend  
A blessing from above  
You've been God sent to me  
You're the Godsend I've been dreaming of  
You're a Godsend I was made for you, you were made for me  
In this lonely world, we were meant to be in love I will never forget that first moment we met  
When two worlds, they crashed in  
And I found my best friend You're a Godsend  
A blessing from above  
You've been God sent to me  
You're the Godsend I've been dreaming of  
You're a Godsend
