

# Serendipity

Emily Kopp

Holding something you can't yet grasp it's all because you're in a rush and always feeling a bit afraid to  
again. Suddenly you look around and you're settling in the same town that your father's father built oh way back  
when

Time passes quickly when your feet are stuck and the pavements almost dry and you can hardly breathe through  
the gravity so you scream where'd you go serendipity

Frightened straight to the core and though all of its been said before (ohhh oh oh) your worries lie between here  
and 64. In this moment you realize (realize) the future passed before our eyes. So you buckle up and wish for 25  
(oooh)

Time passes quickly when your feet are stuck and the pavements almost dry and you can hardly breathe through  
the gravity so you scream where'd you go serendipity

You can't find your loosing mind, so you wish for a better time, I know it's scary to move on but you'll  
ayyye serendipity

(Serendipity find me) serendipity (find me) oh serendipity (find me) serendipity find me, find me (find me,  
serendipity find me) serendipity find me find me find me find me (serendipity find me) serendipity (find me)  
serendipity find me oh find find find find find find find me oh. (Serendipity find me, Serendipity find me,  
Serendipity find me)

I got to know know know know serendipity come come find find me serendipity oh serendipity oh serendipity  
find me find me find me find me oh I'm looking I'm looking everywhere I got to find it find me I'm looking  
everywhere I'm looking I'm looking now find me find me oh serendipity find me find me yah I've got to  
now oh I've got to know now oh serendipity find find me oh I've got know oh got to oh serendipity I'm looking  
for you everywhere serendipity come find me
