All Is Well

Glint

Soon, time will tell, time wonâ€™t bend
Wonâ€™t ease or make you find amends
The words are lost, the band has stopped
Searching for a trail you dropped
On my own, for so long, for reasons why we sing this song
I understand, if only it came to me soon
I understand, together we share the moon

Soon, time will tell-
All is well
Iâ€™m falling since I fell-
All is well
Iâ€™m farther from my hell-
All is well, All is well

Lost broken friends, fell into two
Times were hard but we feel through
We unite by my side, preparing for a brand new ride-
All my life wondering, if itâ€™s love that will bring
I understand, if only it came to me soon
I understand, together we share the moon

Soon, time will tell-
All is well
Iâ€™m falling since I fell-
All is well
Iâ€™m farther from my hell-
All is well, All is well
