

# Now That We're Dead

## Metallica

When darkness falls, may it be,  
that he should see the light  
When reaper calls, may it be,  
that we walk straight and right  
When doubt returns, may it be.  
the fates shall permeate our skies  
When we're seduced, then may it be,  
that we not deviate our cause  
All sinners, a future,  
all saints, a past  
Beginning, the ending,  
we turn to ask  
Now that we're dead, my dear,  
we can be together  
Now that we're dead, my dear,  
we can live forever  
When all is pain, may it be,  
it's all we've ever known  
When blame consumes, may it be,  
it warms our dying bones  
When lost has won, may it be,  
that you are madly fighting for  
When kingdom comes, may it be,  
we walk right through that open door  
All sinners, a future,  
all saints, a past  
Beginning, the ending,  
we turn to ask  
Now that we're dead, my dear,  
we can be together  
Now that we're dead, my dear,  
we can live forever...(Solo)  
All sinners, a future,  
all saints, a past  
Beginning, the ending,  
we turn to ask  
Now that we're dead, my dear,  
we can be together  
Now that we're dead, my dear,  
we can live...  
We can live forever!!!
