Daniel

Lior

Step into a doorway in my mind
This is where you live
It's where you live
I forgot the things that I could find
I have not been in here for years

High, high, high

I climbed the stairs that hide beneath the vines
I walked through the year overgrowth of time
Up to where we sat in clouds of smoke
Up to where we swam in pools of hope

High, high, high
High, high, high, high

And all the while im looking for your half smile or something that will show me that you are still around
And all the while im looking for you half smile or something that will show me that ooooh that you still know me
yeah you still know me

Futher on the pavement starts to crack
This is where we fell, it's where we fell
where smoke turns to haze
i hesitate, and i choose to leave the way I came

High, high

Outside its overcast and visions hard to find
But the memories will be my guide
Cause even though I know our skins have changed
The colours that we share will still remain

High

And all the while im looking for your half smile or something that will show me that you are still around
And all the while im looking for you half smile or something that will show me that ooooh that you still know me
yeah you still know me

Step into a doorway in my mind
This is where you live Daniel
