Immune

Immune

In love with you again, so I
Can fall apart again
Just like a burning candle, I'd be your burning sun
Just like a wind, to carry you across the oceanSo what if I, what if I?
Throw my return to you
with now way out?
There's no way out
And I'll come and beg for you
Cause there's no way out, and there's no way out anymoreI'm bending back to face the truth, about
So many things I never knew
There's too much hate to let go
Just like a canvas underneath the water show
The stains of every color, I've had to knowSo what if I, what if I?
Throw my return to you, with now way out?
There's no way out
And I'll come and beg for you
Cause there's no way out, and there's no way out anymoreAnd I'll throw my return to you, with no way out
There's no way out
And I'll come and beg to you
With no way out, and there's no
No way outNo way out
