You Wouldn't Know

Hellyeah

You couldnt be, you couldnt be me even if you wanted to

Everything Ive been through, you wouldn't know

Live your life, soaking up all my sunshine

And smile your whole life, I wouldnt know18 wheels are rolling, 18 wheels are crushing me down

Running me down

Cars are crashing, cars are crashing all around me Running me downAll my days are numbered

All my days are gray

All my skies are covered

All my ends are frayedYou couldnt be, you couldnt be me even if you wanted to

Everything Ive been through, you wouldnt know

Live your life, soaking up all my sunshine

And smile your whole life, I wouldnt knowLightnings crashin

Thunders rolling all around me, bringing me down

Stars are falling, fires lighting all around me

Burning me downAll my days are numbered

All my days are gray

All my skies are covered

All my ends are frayedYou couldnt be, you couldnt be me even if you wanted to

Everything Ive been through, you wouldnt know

Live your life, soaking up all my sunshine

And smile your whole life, I wouldnt knowFeels like Im falling down

Inside a fever rising

Buried my life deep in the ground

Left my existence lying, so lets goYou couldnt be, you couldnt be me even if you wanted to

Everything Ive been through, you wouldnt know

Live your life, soaking up all my sunshine

And smile your whole lifeYou couldnt be, you couldnt be me even if you wanted to

Everything Ive been through, you wouldnt know
