Enemy

Edgewater

Shady day, I'm the prey
It's the rage, I know that you are hunting
Everything, inside of me
Enemy, and you are so damn dirty
Shoot the man, I still stand
I don't care, because I'm not afraid
On the run, got a gun
But I can't erase this pain
Shed my skin, time wears thin
In the end, all I want is to survive this
Everyday, energy, seems to stray
Can't stop this pain
Save me, save me, save me
'Cause I'm running from these things on me
It's in my head, it's in my head
And I suffer from this deadly disease
It's aching, it's aching
Inside of me...
Shady day, I'm the prey
It's the rage, I know that you are hunting
Everything, inside of me
Enemy, and you are so damn dirty

Shoot the man, I still stand
I don't care, because I'm not afraid
On the run, got a gun
But I can't erase this pain!
'Cause I'm running from these things on me
It's in my head, it's in my head
And I suffer from this deadly disease
It's aching, it's aching
Inside of me...
Rising above all
'Cause I am killing over
And I know you
Are going on
Yeah!!
Don't want to burn up
Don't want to hide

I slip away, genocide
Don't want to burn up
Don't want to hide
I wait, I wait, I wait, I...
