Tomorrow Comes Today

Smooth Jazz All Stars

Alone I face the sun
The burning has begun
I live to find a way
A never ending faith
My heart is on display
And I long to find a place
For light to shine right through
All of the shadows on my face
[Chorus]So shine for me and anyone
Cast a shadow on the sun
The light to find my way
I hope tomorrow comes today
Another day goes by
Alone I wonder why
Beginning seems so close
And endings fade away
So difficult for anyone to see
I barely recognize this image of me
I'm trying to hide the scars
All of them blistering on me
[Chorus]So shine for me anyone
Cast a shadow on the sun

The light to find my way
I hope tomorrow comes today
And I won't be the one
A shadow on the sun
A light to find the way
Because tomorrow comes today
And I have the strength to overcome
I have the will to carry on
I'm not scared to face this world on my own
On my own
Alone I face the sun
The burning has begun
A light is shining through
And it brings me back to you
[Chorus]So shine for me anyone
Cast a shadow on the sun

The light to find my way
I hope tomorrow comes today
And I won't be the one
A shadow on the sun
A light to find the way
Because tomorrow comes today
I hope tomorrow comes today
I hope tomorrow comes today
