Radio Romance

Tiffany

I see you baby every single day
Holding on to my best friend
But you don't see me
So I make the same request nowEvery single night going out from me to you
On the dedication line, I wonder if you're listening
To the words that keep me wishing
That one day I'll be kissing you, wo wo woRadio radio romance

Radio radio romance
Radio romanceMy secret admiration, I won't reveal
I wouldn't want to hurt no one
By tellin' how I feel
The DJ knows my voice nowHe even knows my choice now
He never says my name
He just says "From the one
Who loves you baby"Radio radio romance
