Turn Around

Sarah Bettens

As long as I can keep my head from spinning back
As long as I can keep my focus on a point that lies ahead
As long as I can move along
As long as nothing too disturbing hits me wrongThen I turn around and I do that all the time
Going there feels wrong but the past is so much fun
And all memories are sweeter 'cause they're gone
I always want to turn aroundThere's a here and now and people to be loved
There are ways to be discovered
There is a green next to the rough
And sometimes I am not afraid to live
Most of all there is you and what you giveThen I turn around and I do that all the time
Going there feels wrong but the past is so much fun
And all memories are sweeter 'cause they're gone
I always want to turn aroundAnd I do that all the time
Going there feels wrong but the past is so much fun
And all memories are sweeter 'cause they're gone
I always want to turn aroundAs long as I can keep my head from spinning back
As long as I can keep my focus on a point that lies ahead
