Buzzinâ€™

Maher Daniel

Bonfire burnin'
July beach
Radio is crankin'
You're dancin' here with meFriends are laughin'
Howlin' at the moon
We start sneakin'
Off behind the dunesSome like to sip, some like to chug
Some like to dip, some light one up
Everybody doin' what they gotta do
I got you[Chorus]
I don't need none of them vices
To put my head up in the clouds and get me flyin'
All I need is just a touch of your sweet lovin'
To get me buzzin'Blood starts racin'
Fever pitch
The moment I start tastin'
Your intoxicating kissSome like to sip, some like to chug
Some like to dip, some light one up
Everybody doin' what they gotta do
I got you[Chorus]
I don't need none of them vices
To put my head up in the clouds and get me flyin'
All I need is just a touch of your sweet lovin'
To get me buzzin'When the sunrise
Starts breakin' through
I won't be lookin' for no coffee
'Cause I got, I got you[Chorus]
I don't need none of them vices
To put my head up in the clouds and get me flyin'
All I need is just a touch of your sweet lovin'
To get me buzzin'I don't need none of them vices
To put my head up in the clouds and get me flyin'
All I need is just a touch of your sweet lovin'
To get me buzzin'To get me buzzin'
Some like to sip, some like to chug
Some like to dip, some light one up
Everybody doin' what they gotta do, oh girl
But I got you
