Goodtimes

JCB

Do do do do do do do do do
It's for the good times baby
You're working to hard
Too many hours on the job
And you know it must get better than this
You're kidding yourself and missing your love
It's been weeks since you've been out
With your friends
We all need to change once in a while
The time to make a change is Friday night
This is for the good times
This is to the good lives
This is for the good times
This is to the good lives
Make it easy baby
Here's to good times
The pressure's on
Boss is breathing down ya neck
But the only the you see is
The pamphlet on ya desk
You fantasize
The day you leave it all behind
Spend the best days of your lives

Just lying in the sun
We all need to change once in a while
The time to make a change is Friday night
This is for the good times
This is to the good lives
This is for the good times
This is to the good lives
Take is easy baby
Here's to good times
It's for the good times baby
We all need to change once in a while
It's time to make a change this Friday night
This is for the good times
This is to the good lives
This is for the good times

This is to the good lives
This is for the good times
This is to the good lives
This is for the good times
This is to the good lives
