

Annie's Other Song

John Denver

I'm bringin me home to you it's all that I have to give
My life my love my everything
It's you I choose to be with I had a wonderful time in the city
I smile when I recall
The space the songs the company
I really had a ball Then a funny set of circumstances
sends me out on the road alone
with the moon lookin' over my shoulder
findin' my way back home I'm bringin' me home to you
it's all that I have to give
my life my love my everything
it's you I chose to be with and when I lay down beside you
and all the love that you've shown
I want to live my life with you
It's all the dreams that I've known I'm bringin' me home to you
It's all that I have to give
My life my love my everything
It's you I choose to be with
It's you I choose to be with
It's you I want to live with
