

Dicembre Piu Difettoso

Mortimer Nova

succumbing to temptation
seems to be my biggest weakness
mishandling situations yah yeah yah
i can be held accountable, a million times again
and again and again i can see you on my doorstep but you cant come in
i can feel you breathing on my neck but you can't touch me
i can hear you crying on the phone but i won't pick up queen of imasculation
so suited that it's you
your so avid with control, yah yeah yah
and you treat me with such irreverence
again and again and again i can see you on my doorstep but you cant come in
i can feel you breathing on my neck but you can't touch me
i can hear you crying on the phone but i won't pick up
