

# No One

## Squad Five-O

last night, i had a dream, you and i  
we were brothers, we were brothers, again  
in my dream it seemed so real  
why can't it be that way again?  
saw you yesterday man  
i felt the power of Christ that binds us  
why can't we work it out man  
get together, put the past behind us  
no one can tear us apart  
NO ONE!!
