Tonight Is Forever

Liza Minnelli

I may be wrong, I may be right
Money's short, time is tight
Don't even think about those bills
Don't pay the price, we never willWe're out again another night
We'll never have enough
It could be like this forever
If we fall in loveTonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the keyI may be wrong, I may be right
So don't depend, I could lie
I haven't got a job to pay
But I could stay in bed all dayThen out again, another night
I'll never have enough
It will be like this forever
If we fall in loveTonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
Tonight, tonight, tonight, tonight
Tonight is the first nightWe don't need any more when we dance
I won't think of the future tonightI may be wrong, I may be right
But I don't give up any night
You could say conventional
And I would claim intentionalWe're out again another night
We never have enough
It will be like this forever
When we fall in loveTonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
Tonight, tonight, tonight, tonight
TonightTonight, tonight, tonight, tonight
Tonight
Tonight, tonight, tonight, tonight
Tonight is forever
