Afraid of Love

You stole my heart the moment you came to town
I said, "Hello" but you were gone when I turned around
You can't get away, can't get away, even if you try now
I wanna tell you but the words just can't be foundI like the way you move and just the way you are
I can't take anymore 'coz girl you're pushin' too hard
You can't get away, can't let you go, what's a boy to do now?
You got me askin' myself how I survived this farGotta get away from you, girl
'Coz I've never been afraid of love 'til I met you
Never thought a girl could make me feel the way you do
Never been afraid of love 'til I met you
Yes you sayCan't be something that you never ever had
When I stop and think about you, it makes me laugh
You took me by surprise, I saw it in your eyes, I never had a chance, girl
Now that I see what you are, it doesn't hurt so badGotta get away from you, girl
'Coz I've never been afraid of love 'til I met you
Never thought a girl could make me feel the way you do
Never been afraid of love 'til I met you
Yes you say
