

# Camouflage

[Brad Paisley](#)

Kevin wasn't really all that popular in school  
But I remember well the day I thought now that guy is pretty cool  
He pulled into the parking lot and everybody cheered  
'Cause he had gone and painted his entire Chevy Cavalier  
Camouflage (camouflage) Camouflage (camouflage)  
It disappears when it pulls out of his garage  
Camouflage (camouflage), camouflage I asked Penny to the prom and her mom knew how to sew  
So she made a matching tux and gown from Duckblind Mossy Oak  
We took pictures in the backyard before we went to the dance  
And the only thing you can see is our faces and our hands Camouflage (camouflage), camouflage (camouflage)  
You should have seen the way it popped with her corsage  
Camouflage (camouflage),  
Camouflage, ain't nothing that doesn't go with camouflage You can blend in in the country  
You can stand out in the fashion world  
Be invisible to a white tail  
Irresistible to redneck girl Camouflage (camouflage), camouflage  
Oh you're my favorite color camouflage (Get her done) You can blend in in the country  
You can stand out in the fashion world  
Be invisible to a white tail  
Irresistible to redneck girl Well the stars and bars offends some folks and I guess I see why  
Nowadays there's still a way to show your southern pride  
The only thing is patriotic as the old red white and blue  
Is green and gray and black and brown and tan all over too Camouflage (camouflage), camouflage (camouflage)  
Designed by mother nature and by God  
It's camouflage (camouflage), camouflage  
You're my favorite color camouflage (Get her done)
