

# Rainmakers

## Naomi Pilgrim

Up on the roof  
Where the sunset made us blind  
You put on our suits  
And you were running by my side Our heads in debris  
Well, it was different way back then  
We lit up the seas  
And the cinderella sign for all We are rainmakers in the dark  
Hunting for sparks  
There you found the treasure within  
Treasure within my heart Dancers beneath the stars  
Searching for sparks  
There you found the treasure within my heart  
And into the void  
We were singing through the cold  
We filtered the noise  
And there was nothing left to say We took something real  
And we watched fall apart  
And now that it's gone  
I still remember every sight We are rainmakers in the dark  
Hunting for sparks  
There you found the treasure within  
Treasure within my heart Dancers beneath the stars  
Searching for sparks  
There you found the treasure within my heart  
But don't you forget  
There's a time bomb in our hearts  
And don't you regret  
That it goes off 'cause it goes off when it goes off Don't you forget  
There's a time bomb in our hearts  
And don't you regret  
That it goes off 'cause it goes off when it goes off Don't you forget  
There's a time bomb in our hearts  
And don't you regret  
That it goes off 'cause it goes off when it goes off Don't you forget  
There's a time bomb in our hearts  
And don't you regret  
That it goes off and now you say We are rainmakers in the dark  
Hunting for sparks  
There you found the treasure within

Treasure within my heartDancers beneath the stars  
Searching for sparks  
There you found the treasure within my heartTreasure within my heart  
Treasure within my heart  
There you found the treasure within my heart
